REMEMBERING A RENAISSANCE

Renaissance connotes a rebirth. Our knowledge of the history of the world and human kind is based on discovering our past which is always an exciting experience. A global perspective connecting our earliest human ancestors who first walked the African grasslands and have arrived to this new global perspective of the 21st Century.... an enormously marvelous journey!!

These Renaissance transformations which included new ways of building, new styles of art, new ways of living--be it of the classical Greek Renaissance, Medieval, Fourteenth through Sixteenth Century European Expansion---Great individuals stepped forth out of the multitudes with their gifts, talents and dreams creating a chapter for the good of humankind.

Today, Celebration of Cities Thanksgiving International 2007,
We salute three living Renaissance men of the 21st Century.
